

Activation Solutions

At Blue Eagle Consulting, our approach to implementation and activation support is different, we strive to achieve more. Our goal is to facilitate a successful implementation and that is easily measured by the confidence and success of your end-users. It's more than staffing a specific number of resources. It's about the value each of our resources will bring and how we manage the day to day of a go-live. We support all major EHR vendors, including:

• *Epic* • *Cerner* • *Siemens* • *McKesson* • *MEDITECH* • *Allscripts* • *NextGen* • *athena*

The Right People at the Right Place at the Right Time!

Implementing a new EHR is among the largest expenditure and effort undertaking that most organizations will tackle. With so much at risk, go-live can be a wild success or an epic failure and set the clinical and financial direction for your organization for years to come. BEC brings you piece of mind with our superior training model and our proprietary go-live dash board.

- *Curriculum Development*
- *Super User Training*
- *End User Training*
- *Help Desk Staffing/Ticketing*
- *Activation Services*
- *Optimization Services*
- *Legacy Support*
- *Full-Cycle Project Management*

Let us be your turn-key solution with our proven methodologies and activation professionals. We can also help you fill in the gaps by augmenting your team as needed. We have the proven ability and strength to staff 1-300+ resources.

Your Trusted Partner

We work with every individual client to provide the consultants with the experience and knowledge that best match the specific needs of the project. We provide the “heavy lifting” to ensure successful implementation and use of systems. Our consultants also impart critical software knowledge to a client’s key employees – so that after the successful completion of a project, those employees have the essential skills that establish them as “super users.”

Call today to partner with BEC for your Activation Services! 1 (866) 981-1095
