

HEDIS RECORD REVIEW NURSES

Providing the 'Heavy Lifters' for your HEDIS Projects

Blue Eagle offers a large pool of experienced **HEDIS** chart review nurses that can assist with time sensitive chart reviews. Our network of seasoned professionals includes **RNs** and **LPNs** that have been pre-screened for expertise with **HEDIS** and other chart review projects requiring clinical reviews. Our team is experienced in the following areas:

- **GPRO**
- **STARS**
- **HEDIS**
- **Program & Project Management**
- **Updates to billing, coding, and utilization**
- **Pre-authorization**

If you were not pleased with your outcomes last year or your reviews lacked the clinical expertise needed, let us help. Our nurses are able to function at a very high level, very quickly with a very low rate of error.

Your Trusted Partner

We work with every individual client to provide the consultants with the experience and knowledge that best match the specific needs of the project. We provide the “heavy lifting” to ensure successful implementation and use of systems. Our consultants also impart critical software knowledge to a client’s key employees – so that after the successful completion of a project, those employees have the essential skills that establish them as “super users.”
